Learning made easy using Technology

You can do it! Dream Big!!

Learners Foundation Trust [R]

Learners Pre University College

An Open Letter

To the parents and students of 10th Standard

Dear Students/Parents,

We have something very important to say in this open letter and request you to kindly read it.

Which is the best course in PUC for engineering aspirants?

In Karnataka many science students opt for PCMB course with the intention of having an open option either to join Engineering or Medical course. But during the course of PUC, majority of the students find it difficult to cope up with both Biology & Mathematics and loose focus. In some states, students can either opt for PCM for Engineering or PCB for Medicine. Statistics reveal that students from such states bag majority of the ranks at national level Engineering/Medical entrance exams. The reason is obvious, i.e. they are more focused in achieving their goal as soon as they complete 10th Standard.

So think logically to decide your career option and choose the appropriate course in PUC as it is very crucial at this juncture in your life.

In Karnataka, PCMC is an excellent course for engineering aspirants wherein students can learn computer skills and apply it to learn physics, chemistry and mathematics using software tools.

Don't become one in hundreds!

The trend in Mysore is that students join PU College and also tuition at 4 different places where it is already crowded. Please don't forget the fact that getting personal attention may not be possible if you become one among them.

Why should you consider Learners Pre-University College?

Integrated College

Learners PU College is an integrated college where students are trained for CET/AIEEE/IIT along with PU syllabus by our qualified faculty.

Study Technology

Learners PU College is set up by professionals with the strong intention of promoting various learning tools and technologies to make learning easy, interesting and effective.

Learnability

"Give a man a fish, you feed him for a day. Teach him to fish, and you feed him for life."
Learners PU college has designed an exclusive program to teach every student "How to Learn" and inculcate the habits of successful life-long learners i.e. Responsible; Respectful; Cooperative; Confident; Reflective Thinking; Attentive; Creative Thinking; Independent and Critical Thinking.

Knowledge sharing

Knowledge grows exponentially when shared, therefore Learners PU College will instill team work and promote sharing of knowledge among students.

On-line Classroom

Learners PU College is highly focused in training students on computer and exposing them to global knowledge resources.

For further details, please contact us in person.

Trustees,
Learners Foundation Trust

Mysore needs a good PU College

To relieve students from the tuition burden of going to 4 different places

New Landmark! New Start!
